PROFESSIONAL SUMMARY

As a highly motivated Engineering student specializing in Computer Science and Engineering, I am eager to apply my academic foundation to real-world challenges. I am expected to graduate in 2027. I am currently seeking opportunities to leverage my developing skills and contribute to innovative projects. I am keen on gaining practical experience and making a meaningful impact within the technology sector.

TECHNICAL SKILL

- Programming Languages: C, C++, Python, JavaScript, Java
- Development: HTML, CSS, JavaScript, Android.
- Tools: VS code, Android Studio, GitHub
- Database: MongoDB, MySQL.

PROJECTS

- **Time-Table Generator** **HTML, CSS, JSP**
 - Designed and implemented an automated Timetable Generator that efficiently creates conflict-free schedules for classes, exams, or events. Utilized algorithms to optimize resource allocation and time management, reducing manual effort and improving organizational efficiency.
- **AI-Code-Review** **Python**
 - An AI-powered tool that automatically analyzes source code and provides suggestions to improve code quality, detect bugs, and enhance overall software performance.
- **Portfolio** **JavaScript**
 - A personal portfolio website showcasing my projects, skills, and development work with links to GitHub, LinkedIn, and contact information.

INTERNSHIP EXPERIENCE

- **Android Developer Intern - Mount Reach Solutions · June 2023 – July 2023**

I developed an Android application using Java and Android Studio, worked on UI/UX design, debugging, and performance optimization, and learned the fundamentals of mobile app development and project deployment.
- **Full Stack Development Intern - Smart Ed Internship · Feb 2026 – March 2026**

I worked on building web applications using HTML, CSS, JavaScript, React, Node.js, and MongoDB, contributed to both frontend and backend development, and gained hands-on experience in creating and managing complete web applications.
